Self-amalgamating Bonding Tap

DESCRIPTION

Self-Amalgamating tape is designed to be used to seal an outdoor coaxial connection against the weather. When installed it will cure into a single amorphous mass to keep out moisture & yet can be readily removed by cutting-off to enable disconnection. It has great high voltage insulating properties as well as being chemical resistant.

FEATURES

- Length: 10 meters
- High Voltage Capable
- Weatherproof
- Self-fusing

INSTRUCTIONS FOR USE

Remove separator of tape, elongate to twice its original length. Wrap continuously, half overlapping each turn. For complete protection also apply one or two layers of PVC Electrical Tape over the self-amalgamating tape.

PACKAGING

Each: Net Weight – 0.3g

Box: 50 Pcs - G.W. 15kg

WARRANTY

12 months (Please refer to [Benelec Terms & Conditions](#))
